

SITE SPLITTING

Due to high demand for smaller site sizes, the Committee has decided to allow exhibitors to order a full or half site. This means if an exhibitor does not require a full site, they can request a half site, and the remainder of the site will be allocated to a complementing exhibit.

This will allow exhibitors the option to still request the same site they have had in previous years, even if they no longer require the full space.

PLEASE NOTE: Site splitting is subject to availability and cannot be guaranteed on certain sites. It is not available inside pavilions, including Lifestyle, Good Food and Getaways, or permanent sheds in the Machinery area.

SITE SHARING

Exhibitors are permitted to share their site, but must inform the Field Days office. Please include details of who you are sharing with via the sharing form on page 20.

This is to ensure:

1. The exhibits of sharing exhibitors fall within the Field Days conditions.
2. The location of all exhibitors present is known to assist with visitor enquiries.
3. **ALL** exhibitors appear in the program.

Sharing an exhibit incurs a fee of \$200, payable by the main exhibitor. Please ensure you order enough additional extras including power and passes to accommodate your sharers. Illegal sharers will be removed from the site and charged a \$200 fee.

SITE ALLOCATIONS

To ensure we maintain the highest possible standard and range of exhibits, the Field Days Committee reserves the right to accept or reject any application. Site allocations will be made by the Event Coordinator taking into account appropriate grouping of exhibits, size of exhibit, power and prior attendance history. While we do our best to allocate preferred sites, due to a high demand for some sites, this is not always possible.
